Guidelines for Accurate and Transparent Health Estimates Reporting

Blinded manuscript

PROVISIONAL ANALYTICAL DRAFT - NOT FOR SUBMISSION

Official GBD 2023 population and official NCI Joinpoint outputs remain external submission gates.

Item	Requirement	Manuscript location	Status
1	Define indicators, populations, and time periods	Methods: Outcomes; Study design	Complete
2	List funding sources and funder roles	Declarations: Funding	Complete for blinded draft
3	Describe source data access	Methods: Data source; Availability statement	Complete
4	Identify all data sources	Supplementary Table S1	Complete
5	Describe data-source inclusion/exclusion	Methods: Prespecified exclusions	Complete
6	Report data-source characteristics	Supplementary Table S1	Complete
7	Provide source data in machine-readable form	Provenance CSV and source archives	Complete subject to IHME terms
8	Describe data processing	Methods; Statistical appendix	Complete
9	Describe model and parameter selection	Methods: Trend/APC; Statistical appendix	Complete
10	Describe covariates	No covariates used	Not applicable
11	Describe uncertainty analysis	Methods: Comparisons; Statistical appendix	Complete with limitation
12	Describe analytical or statistical software	Methods: Reproducibility; README	Complete
13	Provide source code	publication_study source files	Complete
14	Provide results in machine-readable form	CSV and XLSX outputs	Complete
15	Report quantitative estimates with uncertainty	Results; Table 1; Figures 1 and 3	Complete for native estimates
16	Make comparison groups explicit	Methods and all tables	Complete

Item	Requirement	Manuscript location	Status
17	Discuss limitations of data and methods	Discussion: Strengths and limitations	Complete
18	State interpretation and implications	Discussion and Conclusions	Complete

Checklist completion does not override the two external submission gates identified in build_metadata.json.
